

Introduction

Let's learn how to make this Easy 2 Ingredient Cloud Dough today! It's very inexpensive to make, can be colored any way you want, and smells so much better than traditional play doughs.

What you'll need:

- **Hair conditioner. Any kind, as long as it's creamy and CHEAP.** Don't use the expensive stuff. Keep in mind that your play dough will smell like the conditioner, so use something that smells great.
- **Cornstarch**
- **A bowl**
- **A popsicle stick or spatula**
- **Gel food colors (optional)**

Step 1

Put equal parts hair conditioner and cornstarch in your bowl, and start mixing them together. It will most likely look like marshmallow fluff at this point, which is way too wet.

Step 2

Start adding more cornstarch in slowly and mixing as you go. You'll end up with close to a 2 part cornstarch to 1 part conditioner ratio, but that depends on your brand of conditioner and cornstarch. Once it isn't quite coming together with the spatula, use your hands and start squishing it together. If it's too wet, add more cornstarch. If it feels too dry, add more conditioner. When you're happy with the feel of your cloud dough, roll it up into a big ball!
